Allowable Subject Matter

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art does not teach or suggest an optical recording medium, method of making or apparatus for making the medium comprising a recording layer formed of the claimed formula and a light-absorbing layer adjacent thereto. The closest prior art, such as US 5,221,588 or US 6,312,780, disclose a medium having a recording layer formed of a Ge-Sb-Te-Bi material but not of the claimed formula and without a light-absorbing layer..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The art cited disclose Ge-Sb-Te-Bi recording materials or media having light-absorbing layers thereon.
